

Neeraj Gupta

Noida Sector 22, Uttar Pradesh / neerajgupta1052@gmail.com / +91 9211086568

Summary

Skilled web developer with a solid foundation in web development technologies. Having recently graduated in Computer Science, I am proficient in HTML, CSS, and JavaScript, and I am passionate about creating dynamic and visually appealing websites. I am eager to contribute my extensive knowledge and enthusiasm to a dynamic team while continually growing as a professional web developer.

Skills

Microsoft word, Leadership, Microsoft excel, HTML5, CSS, Bootstrap, Database Management, MySQL, C/C++, Data Structure And Algorithms, JavaScript, Microsoft PowerPoint, PHP, Tailwind CSS, Java, Teamwork, Problem Solving, Time management, Adaptability, Organizational Skills

Work Experience

I have completed a 3-month internship and have 1 year of work experience at Coltri Marthub Pvt. Ltd. During this time, I developed multiple websites using the WordPress platform, ensuring each site was fully responsive and optimized for all devices. I also mentored junior developers in modern WordPress practices, contributing to a 20% increase in team productivity and fostering a collaborative learning environment.

Projects

Personal Portfolio

Visit Site:- <https://neerajgupta20.github.io/Portfolio/>

- In my portfolio, you'll find a diverse range of projects that highlight my skills and experiences.
- I designed and constructed my personal portfolio website to showcase my work and skills.
- It incorporates a clean and user-friendly interface, reflecting my commitment to both functionality and aesthetics.

Spotify Clone

Visit Site:- <https://neerajgupta20.github.io/Spotify-clone/>

- Created a Spotify-inspired music streaming platform with seamless cross-device functionality and interactive playback controls for an optimal user experience.
- play, and pause functionality, offering users complete control over their music.

QuizNia - Online quiz web app

- This quiz Web app was built using HTML, CSS, JavaScript, and its framework React, with a MySQL database to store user and quiz data.
- My role in the development of the quiz Web app includes designing the interface and implementing key features.
- I worked closely with a team of three other developers to integrate the front end and back end and ensure a seamless user.

Neeraj - Online food ordering -Website

Visit Site:- <https://neerajgupta20.github.io/Foodies-website/>

- Created an intuitive user interface for browsing menus, selecting items, and placing orders.
- Implemented product catalog, login/signup functionality, and implemented key features.
- Ensured a responsive design, optimizing the website for a smooth user experience across various devices.

- Successfully delivered a user-friendly and visually appealing food ordering platform.

PG Booking-Website

GitHub link to this project:- <https://neerajgupta20.github.io/pg-booking/>

- A simple ReactJS-based website was created for searching and booking PGs in a particular area.
- Designed and developed the front end and created the back end with a dummy database.
- Developed user interface with JavaScript framework ReactJS, HTML5, and CSS.
- Created an assessable, responsive, and functional user interface to allow visitors on any device to have the same user experience.
